KENNETH DELA CRUZ

SOFTWARE ENGINEER

Dynamic and versatile software engineer with 2 years of experience, complemented by extensive experience in electrical engineering and the hospitality industry. Passionate about problem-solving and continuous learning, I leverage my unique background to bring critical thinking, creativity, and a user-centered approach to software engineering.

SKILLS

Programming Languages
Javascript, Typscript, HTML, CSS, Ruby, SQL

Development & Frameworks
React, React Native, Next.js, Redux.js, Expo, Ruby on Rails, TailwindCSS, MaterialUI, Node.js, Express.js, MongoDB, PostgreSQL, Firebase

Tools & Integrations
Git, Github, Netlify, Stripe, RevenueCat, Mailchimp, Twilio, Amplitude

EDUCATION

2022
Software Engineering Immersive
General Assembly

2018- 2019
Master of Project Management Graduate Certificate in Information Technology
Central Queensland University

2010 - 2015
Bachelor of Science in Electrical Engineering
Bulacan State University

WORK EXPERIENCE

Software Engineer • Tooezy Jan 2023 - Present

- Implements full-stack development using TypeScript, React.js, Next.js, React Native, Node.js, Parse Platform, and MongoDB.
- Maintains and creates frontend features for web and cross-platform mobile applications to enhance performance and user experience.
- Develops RESTful APIs and integrated third-party services using Node.js and Parse Platform, ensuring seamless communication between the frontend and backend.
- Collaborates with the development team to establish and manage continuous integration and deployment pipelines, improving development workflow and deployment efficiency.

Junior Software Engineer • Subi Jul 2022 - Jan 2023

- Utilised Typescript, Node.js, React Native, Parse Platform and MongoDB in full-stack mobile development.
- Designed, coded and debugged software product.
- Maintained and improved existing codebases.
- Worked with the business to implement new product features and functionality in a fast-paced agile environment.

Software Engineer Trainee • General Assembly Mar - Jun 2022

- Participated in a rigorous 12-week, 480+ hour intensive program focused on comprehensive learning of essential full-stack software development concepts.
- Completed milestone projects, applying acquired fundamentals in practical applications.
