KENNETH DELA CRUZ

SOFTWARE ENGINEER

PERSONAL PROFILE

I am a software engineer passionate on problem solving and constant learning. With years of experience in electrical engineering and hospitality, I get to transfer my critical thinking, problem solving and creativity skills into the ever-changing field of software engineering.

PROFESSIONAL SKILLS

Node.JS	HTML / CSS
MongoDB	JavaScript
Ruby on Rails	TypeScript
Firebase	React.JS
PostgreSQL	Next.JS
RESTful API	React Native
Netlify	Redux.JS
Render	Ruby
Git	Bootstrap
	Material UI

EDUCATION

2022
Software Engineering Immersive
General Assembly

2018- 2019
Master of Project Management
Graduate Certificate in Information Technology
Central Queensland University

2010 - 2015
Bachelor of Science in Electrical Engineering
Bulacan State University

WORK EXPERIENCE

Tooezy | Jan 2023 - Present
Software Engineer

- Implements full-stack development using Typescript, ReactJS, NextJS, React Native, Node.js, Parse Platform, and MongoDB.
- Develops and maintains responsive web applications, while also specializing in the design and optimization of cross-platform mobile applications.
- Implements server-side logic using Node.js and maintained databases for optimal performance.
- Manages relational and non-relational databases, ensuring data integrity and security.
  Collaborates with dev team to establish continuous integration and deployment pipelines.

SUBI | July 2022 - Jan 2023
Junior Software Engineer

- Utilised Typescript, Node.js, React Native, Parse Platform and MongoDB in full stack mobile development.
- Designed, coded and debugged software product.
- Maintained and improved existing codebases.
- Worked with the business to implement new product features and functionality in a fast paced agile environment.

General Assembly | 2022
Software Engineer

Participated in a rigorous 12-week, 480+ hour intensive program focused on comprehensive learning of essential full-stack software development concepts. The program concluded with milestone projects, where I applied the acquired fundamentals in practical applications.

- Project 3: Pokemon Quizzr | **Github** | **Live Site**
- Project 2: Expense Trackr | **Github** | **Live Site**
- Project 1: Manga-shoppu | **Github** | **Live Site**
- Project 0: Tic Tac Toe | **Github** | **Live Site**

Canva | 2019-2022
Junior Chef

- Utilised Stakeholder management and communication skills to ensure a positive customer experience .

Dream Makers Construction | 2015-2017
Field Electrical Engineer

- Managed costs and resources to meet construction budget.
- Designed revisions and additional works using AutoCAD.
- Identified labour and material cost revisions on electrical works.
